DETAILED ACTION

1. Claims 6-26 were originally presented for Examination.
2. Claims 6-26 were rejected.
3. Claims 27-42 are pending in Instant Application.
4. Claims 27-42 are allowed over the prior art of record.

Allowable Subject Matter / Response to Arguments

5. Applicants' arguments have been fully considered and are persuasive.
6. The following is the Examiner's statement of reasons for allowance:
7. As per claim 24, the most relevant prior-art of record is Sarda in view of Huh that discloses the claim as set-forth in the Previous Office Action, but for the elements persuasively argued in **(page 6 paragraph starting with "It is submitted")**, and **(page 7, first full paragraph)**.
8. The prior art does not explicitly disclose or suggest limitation c) in combination with limitation d), as recited in the claims, and disclosed in the Specification. Specifically, the best prior-art of record does not teach propagating corrections through grid cells of a reservoir model using an iterative optimization process using a minimizing function that depends on the corrections, which uses gradual deformation of the stochastic model.
9. The art of record, either individually or in combination, fails to teach, suggest, or render obvious invention having the corresponding function that is claimed. In view of the foregoing, the Instant Claims of the present application are found to be patentable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

10. All claims are found allowable over prior-art.
